

# ESZTER NAGY

**Garay János Grammar School, Szekszárd**

**Address:** Szent István tér 7-9., H-7100 Szekszárd, Hungary

## TEACHING CAREER IN BRIEF

I graduated with a master's degree in Biology and Environmental Studies from the University of Szeged in 2013. I worked at Béla I Secondary Grammar School in Szekszárd for a short time, and after that I started working at Garay János Secondary Grammar School in Szekszárd, where I have been working ever since. Here, I worked as a teacher of Biology in the four- and six-year courses initially. Since 2023, I have also been assigned as a laboratory manager. In this institution, talent management has always been of a high standard, and I have been happy to be involved in this work. As a teacher, in addition to nurturing talent, I have always found it important that my students not only learn, but also love Biology. In my work, I try to maintain a partnership with my students, in which I consider both cooperation and independence to be essential.

In the György Hevesy Science Student Laboratory, we organize a variety of programs for both elementary and high school student groups. As the manager of the laboratory, my main task is to provide additional opportunities for students who are committed to the natural sciences. In addition, my aim is to arouse the interest of younger students and to develop their scientific thinking.

(The elements of the pedagogy of sustainability and their appearance in the central curricula in the introductory, beginner and foundation school stages) *A Biológia Tanítása* 2013/4.

## SUCCESSFUL STUDENTS

### **Dorka Kocsis**

student of dentistry  
Faculty of Medicine, University of Pécs

### **Alexandra Papp**

pharmacist - Faculty of Pharmacy,  
University of Pécs  
teaching assistant – Institute of  
Biotechnology, University of Pécs  
• PharmD/PhD studentship, Faculty of  
Pharmacy, University of Pécs

### **Rebeka Fődi**

Psychologist – Eötvös Lóránt University  
• Pál Kitaibel Study competition 2016  
15<sup>th</sup> place

### **Kludia Guld**

Biologist – Eötvös Lóránt University  
microbiologist – Gold Standard Diagnostics

### **Ádám Varga**

veterinary student  
University of Veterinary Medicine,  
Budapest

### **Luca Fazekas**

medical student  
Faculty of Medicine, University of Pécs  
• National Higher Education Scholarship
