

ADRIEN LENGYEL

DIRECTOR OF SECONDARY SCHOOL EDUCATION

Calvinist Grammar School of Kecskemét

Address: Szabadság tér 3/a, H-6000 Kecskemét, Hungary

TEACHING CAREER IN BRIEF

Being a student at the József Attila University of Szeged, I concluded my studies as a Biology and Chemistry teacher. My first employment was at the Katona Secondary School at Kecskemét, then I changed to the Calvinistic Secondary School where I'm working up to this day. Upon launching the six-grade education program, my task was to develop the Chemistry curriculum, later I became the head of the teacher's team. We are frequent participants of the TUDOK (Annual Conference of National Scientific Students' Associations) with remarkable success. The achieved results truly enhanced my personal development. Along with a colleague, I'm organizing the Biology field trips which are quite popular amongst our students. I'm also an evaluating teacher at the advanced level final examinations. Throughout the years my main focus has been to modernize Biology education; especially reaching out for students who show interest in this field - for this achievement I received an award. Other significant professional steps were publishing textbooks and books assisting the preparation for final examinations (MAXIM publishing). These activities demand great devotion, lots of reading, consulting and many working hours, yet offer the best way for self-improvement in the dynamically changing subject of Biology. In addition, I handled full readership of a laboratory project and held advanced education to my colleagues. I find these activities both challenging and exciting. I have been working for the foundation since 2015, so our grammar school also became a basic school. The program is very attractive for students of regional high schools, today the active number covers more than a hundred students who are happy to attend our lectures and take part in laboratory classes, only here in the Kecskemét district. My work is to help as many talented students as possible find a place in our excellent universities, to take an active part in research and academic life. (I still have more research students than Szent-Györgyi.)

SUCCESSFUL STUDENTS

Andor Kenyeres

medical student at SZOTE

- OKTV Biology 2010, 35th place

Emese Klément

medical student at Semmelweis University

- OKTV Biology 2012, 30th place

Márk Svévis

doctor at the Honvéd Hospital Budapest

- ORKV Chemistry 2001, 1st place
